

Program

Netzwerk Epidermolysis bullosa (EB)

Satellite Meeting

in partnership with the 35th Annual Meeting of the
European Society for Dermatological Research (ESDR)

September 21, 2005

Kupferbau
Lecture Hall: L 21
Hölderlinstr. 5
D-72074 Tübingen

- 12.00 – 12.30 **Lunch**
- 12.30 – 12.45 **Welcome**
L. Bruckner-Tuderman
- 12.45 – 14.00 **Network Partners: Progress Reports** (each 10 minutes + 5 minutes discussion)
1. Network structure, coordination and communication center
L. Bruckner-Tuderman, Freiburg
 2. Data base and communication structure
T. Ganslandt, Erlangen
 3. Center for diagnostics and management of EB
W. Küster, Bad Salzschlirf
 4. EB simplex
J. Arin, Cologne
 5. Keratinocyte migration: alteration by collagen XVII mutations
C. Schulte, Cologne
- 14.00 – 14.30 The Actin Binding Domain of Plectin: a Versatile Binding Element
(25 minutes, 5 minutes discussion)
A. Sonnenberg, Amsterdam
- 14.30 – 15.00 Coffee Break
- 15.00 – 15.30 DebRA Molecular Diagnostics Laboratory at Jefferson - 10-Year Experience
(25 minutes, 5 minutes discussion)
J. Uitto, Philadelphia
- 15.30 – 16.30 **Network Partners: Progress Reports** (each 10 minutes + 5 minutes discussion)
6. Suprastructural elements: abnormalities in EB
D. Villone, Muenster
 7. A novel therapy approach for EB simplex
T. Magin, Bonn
 8. β 1 integrin in skin blistering
R. Fässler, Munich
 9. Dystrophic EB
C. Has and A. Fritsch, Freiburg
- 16.30 – 17.00 Inherited epidermolysis bullosa and Kindler syndrome: molecular characterization
of Italian patients
(25 minutes, 5 minutes discussion)
G. Zambruno, Rome
- 17.00 – 18.00 **Discussion**
- 18.00 – 18.45 **Administrative Aspects**
- 20.00 **Dinner**
